ISC 4220  
Algorithms for Science Applications 1  
Fall 2012  

SYLLABUS

Instructor  
Sachin Shanbhag  
488, Dirac Science Library  
sshanbhag@fsu.edu (*)

Class  
DSL 152 (Lectures: MWF: 1010 – 1100)  
DSL 152 (Lab: R 1530 – 1800)

Office Hours  
(i) set up time by email (deterministic), or  
(ii) stop by anytime to see if I am available (stochastic)

Text  
Any one of the following three books is recommended but not required.  
(a) Numerical Methods for Engineers  
(b) Numerical Methods: Design, Analysis, and Computer Implementation of Algorithms  
(c) Scientific Computing: An Introductory Survey  

Software  
Matlab (or GNU Octave). They are available on classroom computers and  
department computers at the fourth floor of the Dirac Science Library.  
Students can buy the student versions at their own expense.

Grading  
Assignments  60%  (about 12, will disregard the lowest score)  
Quizzes  40%  (4 quizzes, roughly once a month)  
Participation  maximum bonus of 3%

Pre-reqs  
Calculus 1 and 2

Description  
“Basic computational algorithms including interpolation, approximation, integration, differentiation, and linear systems solution presented in the context of science problems. The lab component includes algorithm implementation for simple problems in the sciences and applying visualization software for interpretation of results. Prerequisite: MAS 2312. Corequisite: ISC 3222.”

Course Plan  
Classes start on Aug 27 (M) and end on Dec 7 (F). Barring unforeseeable event, we will have 42 lectures and 14 labs. The days on which we will not have class are Sep 3 (Labor day), Nov 21 and 23 (Thanksgiving). A rough outline and sequence of topics is as follows:
1. Nonlinear equations (6)
2. Sources of Error (3)
3. Linear Systems (9)
4. Optimization (4)
5. Interpolation (3)
6. Approximation (3)
7. Numerical integration/differentiation (7)
8. Ordinary differential equations (7)

Note that this course plan may be subject to small changes.

Course Policies

- Assignments are due at the beginning of class on the due date. You will work individually. Most homeworks will involve using a computer. If you cannot submit an assignment on time, due to a legitimate reason, please inform me as soon as you can. Otherwise late submissions will be penalized per day by 10% for the first three days. I will not accept homeworks more than 3 days late. for attending and paying attention in class, and no special “preparation” is required.

- If you think you haven’t received the credit you deserve for a homework or an exam, write up your argument, and submit for re-grading no later than 3 days after the graded assignments have been handed out.

- In general, if you score more than 90% overall you will make an A, if you score less than 60% you will fail. I don’t pre-calibrate boundaries between other grades.

University Attendance Policy

Excused absences include documented illness, deaths in the family and other documented crises, call to active military duty or jury duty, religious holy days, and official University activities. These absences will be accommodated in a way that does not arbitrarily penalize students who have a valid excuse. Consideration will also be given to students whose dependent children experience serious illness.

Academic Honor Policy

The Florida State University Academic Honor Policy outlines the University’s expectations for the integrity of students’ academic work, the procedures for resolving alleged violations of those expectations, and the rights and responsibilities of students and faculty members throughout the process. Students are responsible for reading the Academic Honor Policy and for living up to their pledge to “. . . be honest and truthful and . . . [to] strive for personal and institutional integrity at Florida State University.” (Florida State University Academic Honor Policy, found at http://dof.fsu.edu/honorpolicy.htm.)

Americans With Disabilities Act

Students with disabilities needing academic accommodation should:
• register with and provide documentation to the Student Disability Resource Center; and

• bring a letter to the instructor indicating the need for accommodation and what type. This should be done during the first week of class.

This syllabus and other class materials are available in alternative format upon request. For more information about services available to FSU students with disabilities, contact the:

Student Disability Resource Center

**Free Tutoring from FSU** For tutoring and writing help in any course at Florida State University, visit the Academic Center for Excellence (ACE) Tutoring Services’ comprehensive list of tutoring options - see [http://ace.fsu.edu/tutoring](http://ace.fsu.edu/tutoring) or contact tutor@fsu.edu for more information. High-quality tutoring is available by appointment and on a walk-in basis. These services are offered by tutors trained to encourage the highest level of individual academic success while upholding personal academic integrity.

**Syllabus Change Policy**

Except for changes that substantially affect implementation of the evaluation (grading) statement, this syllabus is a guide for the course and is subject to change with advance notice.
